

DPS-5949

25 November 1958

SUBJECT: Handbook for Mk. III Hand Control

TO: Contracting Officer

25X1A

It has been brought to my attention by [REDACTED] that Baird-Atomic never has provided handbooks for the Mk. III Hand Control. As far as can be determined, there was no requirement under Contract No. B-5111A for any data on the Mk. III, although Baird did furnish handbooks of operation and maintenance instructions for other equipment bought in support of our programs.

25X1A

The [REDACTED] using activity has been experiencing some difficulty in maintaining the Mk. III Hand Controls, and it is believed that such a handbook could improve this situation. [REDACTED] a preliminary quote of about \$1,000.00 to prepare a handbook plus publication charges of \$40.00 per copy.

25X1A

You are requested to obtain a formal cost proposal from Baird-Atomic for a Handbook of Operation and Field Maintenance Instructions for the Mk. III Hand Control. The WSSC can then order as many copies as required under the call contract, HF-CT-691.
